This guide has been created to provide step-by-step instructions for accessing and using the Create Impromptu Appointment feature within the Advising/Tutoring Appointment System.

The Create Impromptu Appointment feature allows advisors/tutors to input appointment data for appointments that were not previously scheduled in the Advising/Tutoring Appointment System. This can include appointment data for drop-in advising, phone calls, emails, and other student interactions that were not scheduled.

Log into the Student Information System, select Advisors from the top left menu, and then choose the Advising/Tutoring Appointments tile from the advisor dashboard.

From the left menu, select My Appointments-Advisor-Single.
